May 2nd, 2025

Dear Hope Community Public Charter School Families,

We hope this message finds you well. We are writing to inform you that, after careful consideration, Hope Community Public Charter School will not be offering its own summer programming this year. We understand this news may be disappointing, as our summer programs have always provided valuable learning and enrichment opportunities for our students.

Our primary goal remains to support our students' continued growth and engagement over the summer months. To that end, we are committed to assisting families in finding alternative summer programs, ideally at the schools your children will be attending in the upcoming school year. Participating in these programs can help students become familiar with their new school communities, meet future classmates, and ease the transition in the fall.

We encourage families to explore summer offerings at your child's next school, as many local schools and organizations provide a variety of academic, arts, and enrichment camps. If you need assistance identifying or applying to these programs, please reach out to our main office or your child's current teacher. We are happy to help connect you with resources and provide recommendations.

Thank you for your understanding and continued partnership. We are dedicated to ensuring every student has a safe, engaging, and productive summer, even if it looks a little different this year.

Sincerely,

Charles M. Thomas
