The Act also requires that a person that submits a proposal in response to DCP's request for proposal must certify to the public entity that it is not an Iran Linked Business. This requirement applies to all requests for proposals issued by DCP, and not just to construction projects.

The Act defines an Iran Linked Business as: A person engaging in investment activities in the energy sector of Iran, including a person that provides oil or liquefied natural gas tankers or products used to construct or maintain pipelines used to transport oil or liquefied natural gas for the energy sector of Iran; A financial institution that extends credit to another person, if that person will use the credit to engage in investment activities in the energy sector of Iran.

If DCP determines, using credible information available to the public, that a person or entity has submitted a false certification, DCP must provide written notice to the person or entity of its determination and of its intent not to enter into or renew the contract. The notice must include information on how to contest the determination.
